About the Science Factory

Mission: Engage, excite and inspire children toward a lifelong love of learning about science, technology and humanity.

More than a Museum

-  Exhibit Hall
-  Innovative Educational Classes
-  Science Camps
-  Field Trips
-  Full-Dome Theater/Planetarium
-  Computer Laboratory
-  Thematic Special Events

Base of Support

-  Membership
-  Admissions
-  Field Trips
-  Grants
-  In-kind Donations
-  Partnerships with Local Businesses and Benefactors

The Science Factory does not receive any public or governmental funding. It is a 501(c)(3) non-profit Oregon corporation. All contributions are tax deductible.

The Value of Science Museums

A thriving science center in Lane County is vital to our community's overall health and growth. Research has shown that science centers:

-  Offer rich, social environments for learning and significant support for schools
-  Spur an increase in creativity, perception, logic development, communication skills, and reading readiness
-  Support positive attitudes toward science
-  Encourage interest in careers in science, mathematics, engineering, and technology
-  Leave long-term memories
